

## Abboud 2009

In times like this when life gets tough  
We need a leader who knows his stuff  
"So brilliant, so clever, so crafty and shrewd"  
Words used to describe our own Bob Abboud

When our zoning laws come under attack  
We need a leader who's got our back  
Just when we're thinking, "we're about to get screwed"  
Who comes to the rescue?...President Bob Abboud

Imagine our village without a Comprehensive Plan  
We have one now, thanks to "our man"  
In matters like this, he's been tried and trued  
When we need to produce, we look to Abboud

He'll stand in the path of a train with no fear  
It's a sight to behold...engineer 'gainst Engineer  
You win some, you lose some, you're applauded, you're booed  
But through thick and thin, we stand with Abboud

If admiration and praise make his hat a bit tight  
Patricia will help keep his head screwed on right  
For her we are grateful, our thanks have accrued  
She's the keeper of our leader, our own Bob Abboud

He loves what he's doing, he's the man for the job  
Despite national notoriety he still answers to "Bob"  
He seeks no salary, he works only for food  
So let's keep him in office, please vote Bob Abboud
